

# SBC682CMTWIN

33.63" x 23.75" x 24" (H x W x D)

24" wide indoor/outdoor dual tap combination cold brew/nitro coffee dispenser for built-in or freestanding commercial or residential use, with stainless steel exterior and caster set

**Highlights:**

- Commercially approved to NSF-7 standards
- Unique tap combination allows you to serve both nitro and regular cold brew on tap from two separate sixtel kegs
- Weatherproof construction for safe use in the outdoors

**Product Features:**

|                                      |                                                                                                                                                                           |
|--------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dispenses both flat and nitro coffee | Unique combination stout and standard tap system allows you to serve both flat iced cold brew and nitro drafts                                                            |
| Full-sized dispenser                 | 5.6 cu.ft. interior can accept a full half barrel or quarter keg, or up to three sixth barrels or Cornelius style kegs                                                    |
| Commercially approved                | ETL-S listed to NSF-7 standards and meets UL-471 for use in commercial settings                                                                                           |
| Weatherproof design                  | Solid 304 grade stainless steel construction allows placement in the outdoors                                                                                             |
| Built-in capable                     | Front-breathing design allows fully recessed installation under counters                                                                                                  |
| Complete dual tap kit                | Commercial grade tap kit includes a dual tap draft tower with a standard and stout tap, Nitrogen tank, dual gauge regulator, and connections for ball lock Cornelius kegs |
| Dual tap system                      | Twin draft tower allows you to serve from two 1/6 (sixel) sized kegs                                                                                                      |
| Automatic defrost                    | Reduced user maintenance with auto defrost operation                                                                                                                      |
| Digital thermostat                   | Electronic controls ensure easy temperature management, with an external readout in Celsius or Fahrenheit                                                                 |

SBC682CMTWIN Specifications:

| Overview                   |                       |
|----------------------------|-----------------------|
| Nominal Height             | 34.0" (86 cm)         |
| Height of Cabinet          | 33.63" (85 cm)        |
