

30 inch Electric Speed Oven Combination with Steam, Self-Clean and Bertazzoni Assistant Professional Series

\$ 7,499

Made to order. Available starting August.

FPRO30COVTC

Experience ultimate cooking flexibility with a refined dual-cavity design. It pairs a microwave speed oven in the upper cavity with a powerful self-cleaning Steam Assist main oven, bringing Bertazzoni's signature Italian design and precision to the heart of your kitchen.

Steam Assist combines convection heat with controlled steam for crispy exteriors and moist, flavorful interiors, while reducing cooking time and simplifying cleanup.

The 8.8" Full Touch TFT Display offers a sleek, intuitive interface, while the Bertazzoni app lets you control cooking, monitor progress, and access recipes remotely.

The built-in Air Fry mode delivers crispy, golden results without deep frying, using high heat and optimized airflow for healthier cooking.

With the Bertazzoni Assistant, you simply select your dish and desired doneness; the oven automatically manages the process. The integrated meat probe ensures perfect internal temperatures every time.

A generous dual-cavity capacity of 4.8 cu. ft. in the main oven and 1.6 cu. ft. in the microwave upper cavity provides ample space for everyday cooking and entertaining.

Bertazzoni built-in ovens are designed with pride in Italy and are covered by an industry-leading 2-year parts and labor warranty.
